","samsung memory card reader driver".Q: IOS 8 and IOS 9 - how to change Text input from phone I'm currently developing a IOS app (version 2.0). At the first launch I want to prompt the user to enable some capability. The requirement is that users on IOS 8 must have physical keyboard access to do this, and users on IOS 9 and above must be able to use virtual keyboard. I've seen many apps that prompt the user like this on first launch. Is there any way to do it programatically? Thanks in advance A: Here is the link to know about VoiceOver feature. Check this for further clarification.
