## About This Content

One of the greatest things about RPG Maker is its wonderful community - a place where developers share their passion, drive and talent. Whether it be through music, art or scripts, there is a wealth of fantastic resources and tools shared on a regular basis. Community DLC Resource pack is a compilation of resources created by our staff and our community members - and shared with you freely for royalty-free use in both commercial and non-commercial RPG Maker projects.

This pack includes:
- Contributions from over 20 talented individuals.
- Graphical resources include character sets, tiles, portraits, battlers and more
- Audio resources include various themes, sound effects and material exclusively composed for this pack
- Scripts and script snippets, including some of the most popular and widely-used features
- A special preview of Member+ exclusive material, normally *only* shared with our Member+ service subscribers
- A small grouping of material from our staff members, including a never-before-seen title/picture file
